TWO COLLISIONS AT SEA.

The Spanish Cruiser Barcastegui
Wrecked at Havana, and

FORTY-SIX MEN WERE DROWNED.

Including the Spanish Admiral
for Cuba—The Netherlands-
American Liner Edam Foundered
by Collision With the Turkistan.
The Passengers and Crew Safely
Landed—A Dense Fog the Cause.

HAVANA, Sept. 19.—The cruiser Barcastegui was wrecked at midnight by coming in collision with the merchant steamer Mortera, in the canal at the entrance of the port of Havana. Admiral Delgado Parejo and four other officers and thirty of the crew were drowned. Admiral Parejo's body has been recovered. General Ybanez's body was also recovered, but in a badly mutilated condition, indicating that he had been crushed in the collision. The cruiser Barcastegui had been employed in going on government business between different parts of the island of Cuba. The Barcastegui was a third-class cruiser, carrying five heavy and two rapid fire guns. She was of 1,000 tons displacement.

She was built in 1876. The cruiser left for Fort Barcastegui at midnight with Admiral Delgado Parejo on board. On reaching the mouth of the harbor close to Moro fort, the Barcastegui came in collision with the Mortera, a steamer engaged in the coastwise trade. The Mortera struck the cruiser on the starboard and so badly injured her that she sank at once. The Mortera, though badly damaged, stood off to give assistance to those on board the Barcastegui, and with her boats saved the greater part of the crew.

Admiral Parejo, Capt. Ybanez, First Lieutenant Lopez Aldazajo, Second Lieutenant Junco, Soto and Canajo, Dr. Martin, Purser Paez, Machinist Zarauza and thirty-six of the crew were drowned. Aide-de-camp Gaston was saved. Victor Aroja, another of the officers, had his leg broken, but was picked up by a boat from the Mortera.

Gen. Delgado Parejo was commander of the Spanish naval forces in Cuba. He arrived on the island on June 17 from Spain.

Captain Vinal, of the steamer Mortera, in the course of an interview today, said that at 11:15 o'clock last night, when he was within two miles of the entrance to the harbor, he saw ahead on his starboard a green light, which he presumed was that of a steamer leaving port.

"I ordered the engine to slow down," said Captain Vinal, "proceeded on our course, hearing two whistles from the cruiser, to which we replied." Turning into the harbor I immediately ordered the engine to steam backwards, but it was of no avail for the steamers collided. I ordered boats to be lowered and life preservers to be thrown overboard."

TURKISTAN AND EDAM

Collide Near the English Coast—No Lives Reported Lost.

PLYMOUTH, ENGLAND, Sept. 19.—The steamer Beresford has arrived here, having in tow the trawler Vulture, of Brixham, and four ship's boats, containing the captain, crew and passengers of the Netherlands-American Steamship Company's steamship Edam, of Rotterdam, from New York, bound for Amsterdam. At 1 o'clock this morning the Edam collided with the Turkistan when fifty miles southeast of Start Point. The collision occurred in a dense fog. The Edam foundered and the Turkistan was lost to view in the fog. The captain, crew and passengers of the Edam, who had taken to the boats immediately after the collision, were picked up by the trawler.

The steamer Edam was built at Rotterdam in 1883. She was 330 feet long, 39 feet beam and 28 feet deep. She registered 3,130 tons gross and 2,267 tons net. She sailed from Rotterdam and was owned by the Netherlands-American Steam Navigation Company.

The trawler Vulture was on the fishing grounds, fifteen miles from the Eddystone lighthouse, last night. The night had been clear. Just before 1 o'clock a thick fog came up. Those on board the Vulture heard a great blowing of whistles and then a terrific crash. The Vulture proceeded immediately to the spot from which the sounds issued and went alongside the steamship Edam, which was rapidly sinking. Captain Brunson, of the Edam, requested that the Vulture stand by. The ship's boats were then quickly lowered and the passengers were helped into them without accident.

The passengers were greatly alarmed, but there was no panic among them. The majority went down deck without having taken time to dress. The women and children were first embarked in the ship's boats. The sea at the time of the collision was perfectly smooth.

The steamer Turkistan, which did not appear to have sustained serious injury by the collision, stood by until danger was passed and then proceeded in the direction of Cardiff. The Edam foundered at 3 o'clock, two hours after the collision.

The Edam and Turkistan came together with great force, although they were proceeding cautiously in the fog. The Turkistan's prow made a great hole in the side of the Edam. Both vessels immediately lowered boats and many passengers were transferred from the Edam by the Turkistan's boats to those of the former ship.

Everything is being done at Plymouth to make the shipwrecked people comfortable and to supply them with clothing, as all their baggage was lost. The Edam had on board ninety-three steerage passengers.

The Turkistan's bows were badly damaged by the collision. The following is a list of the officers of the foundered steamship Edam: Captain Brunson, First Officer Barel, Second Officer Van Valkenburg, Third Officer East, First Engineer Forthel, Third Engineer De Boer, Fourth Engineer Wagerind.

New York, Sept. 19.—The Edam, Capt. Brunson, sailed from this port on September 5, bound for Amsterdam. On this trip she carried no cabin passengers.

Saw Ship Exploded.
CINCINNATI, O., Sept. 19.—By the explosion of a saw mill, near Proctorville, in Lawrence county, last night, Frank Weekly, the proprietor, and George Mathews were killed. William Turner, the engineer, was so badly hurt he cannot recover.

Sensational Will Contest Decided.
MORRIS, ILL., Sept. 19.—The will by which over \$50,000 was conveyed in the estate of the late Mary Kennedy to Father Meehan, has been broken by a verdict in the circuit court. The evi-

dence indicated fraud on Meehan's part. A new trial has been prayed for. Since the celebrated Maxwell murder case here years ago, nothing has equalled the present case in interest. Senator Duncan was chief counsel for the proponent while States Attorney Stough represented the contestants. The arguments occupied three days, the entire trial nine, and the court room was constantly filled.

TOOK HIS VACATION

And Also \$32,000 to Spend While Re-

opening His Strength.

CHICAGO, Sept. 19.—Ross C. Van Bokkelen, receiving teller of the Merchants' Loan and Trust Company is missing. So is \$33,000 of the money belonging to the institution, which is the second largest banking concern in the west. It is thought that Van Bokkelen has gone to Mexico. The discovery of the shortage came about when a representative of the McCormick Harvester Company called at the bank in regard to a deposit of \$33,000 made last Friday. An examination of the books showed that it had not been entered and further that Van Bokkelen had suddenly left on Saturday on his vacation. The bank officials becoming suspicious made a hasty examination of the missing teller's books and it showed that in the last year and a half the amount appropriated was almost \$50,000.

Van Bokkelen is a son of the late Rev. J. Van Bokkelen, for many years rector of the Trinity Episcopal church at Buffalo, New York.

ANOTHER TRUSTED EMPLOYEE

Added to the Long List of Defaulters.

Probably Two.

CHICAGO, Sept. 19.—An employee of the National Bank of Illinois is missing and with him has disappeared \$19,500 of the bank's funds. He was one of the trusted officials of the bank and had been with the institution a long time. About two weeks ago he sent word to the bank that he was sick. A week rolled by and he did not appear. The officials of the bank became suspicious and ordered an investigation resulting in the discovery of the shortage. The bank officials this afternoon refused to make public the name of the defaulter. They believed, however, that two men were implicated.

Later it was learned that the culprits are paying teller R. B. Jones and receiving teller J. H. Wilson.

TACOMA CITIZENS

Considering the Preliminaries for an Occi-

dental-Oriental Exposition in 1900.

TACOMA, WASH., Sept. 19.—A project to hold an Occidental and Oriental Fair in Tacoma in the summer of the year 1900 was considered by a large meeting of citizens held at the chamber of commerce and unanimously approved. A preliminary organization was formed and committees appointed to perfect plans and get the work started both in this country and in the countries of the east, which it is hoped to interest. The object will be to foster trade relations between the United States and oriental nations. The project has been decided upon as a result of the great growth in oriental traffic, which has so increased in three years that 120,000 tons or four hundred train loads of freight from, and going to, the orient will be handled by the Tacoma-China line this year. Congress will be asked early in the next session to appropriate \$500,000 for a fair on the ground that the Pacific coast is entitled to a fair, never having had one.

FRENCH ARMY MANOEUVRES

Witnessed by Representatives of Russia.

A Prophetic Toast.

MIRACOURT, Sept. 19.—Enormous crowds witnessed the great review today of the French army, which has been maneuvering during the week in the department of the Vosges. The Russian general, Dragomiroff, has been with the troops throughout the manoeuvres. To-day Prince Lobanoff, the Russian minister of foreign affairs, joined General Dragomiroff. The presence of these two representatives of Russia with the French army is regarded as having exceptional significance, and is taken as an evidence of the czar's desire to emphasize the existence of an alliance between Russia and France on military ground. Prince Lobanoff is the closest confidant of Czar Nicholas.

At a banquet which was given Wednesday night General Dragomiroff gave the following toast: "To fraternity on the field of battle; to union in combat and to the little French troops who sometimes move me to tears."

A Suspected Assassin.

Special Dispatch to the Intelligence.

HUNTINGTON, Sept. 19.—Harry Keltz, colored, was arrested here this evening by an officer from Fayette county. He is suspected of being the prisoner who struck a constable at Diego with a coupling pin, a few days ago, and dangerously injured him. He was taken to Diego.

Typhoid Fever Epidemic.

Special Dispatch to the Intelligence.

HUNTINGTON, W. VA., Sept. 19.—Typhoid fever has appeared in an epidemic form at Wayne Court House, and twenty-eight cases are reported. Circuit Clerk M. J. Mills died from the disease last night.

Six Workmen Injured.

NASHVILLE, TENN., Sept. 19.—A portion of the walls of the old colonnade building, corner of Cherry and Dead-erick streets, which is being torn down, fell today. Six workmen were buried under the debris, and all were more or less injured, but none are thought to be fatally hurt.

Suit Dismissed.

NEW YORK, Sept. 18.—Senator Vest, of Missouri, was interviewed this morning in regard to his reported change of views on the silver question. He said: "I know absolutely nothing of the published report, and the alleged conversation never occurred."

CURES THE SERPENT'S STING

CONTAGIOUS BLOOD POISON

In all its stages completely eradicated by S.S.S. Obsolete sores and ulcers yield to its healing powers. It removes the poison and builds up the system. Valuable treatment on the disease and its treatment by S.S.S. S.S.S. CO., Atlantic, Ga.

IRON TRADE REVIEW.

The Trade Awaiting the Result of the Advances in Prices.

CLEVELAND, Sept. 19.—The Iron Trade Review this week says:

After two weeks of only moderate activity in iron, so far as new demand for raw and unfinished material is concerned, the trade is questioning whether the limit of the advance has been reached. The heavy production of pig iron September 1—a yearly rate of 11,000,000 tons, according to one set of blast furnace figures, and of 10,000,000 tons, by the eastern statistics—suggests that some of the reserve talked about three months ago in discussions of prices have at last got in line. Whether unsold stocks shall begin to grow again will be decided by the ability of the country to continue to use up iron at a weekly rate of 200,000 tons. The probability of foreign material putting a stop to the advance on this side is less imminent, since prices abroad have gone up. On Bessemer iron foreign quotations have advanced \$1.25 and \$1.50 in the past few weeks. In the week just ended there have been evidences of weakness in Bessemer at Pittsburgh, but whether this is only the result of maneuvering for position by large buyers and will be succeeded by fresh advances carrying the price to a new notch, or whether it is notice that the limit of high prices has been reached, will be determined in the near future.

MORA CLAIMANTS.

The State Department Deluged With Assignments and Sub-Assignments.

WASHINGTON, Sept. 19.—The Mora claim threatens to become a second Jarndyce case. Every mail brings to the state department fresh assignments and sub-assignments and until there is a reasonable certainty that all outstanding assignments have been heard from, the department cannot proceed with the division of the indemnity. In addition to these assignments there are broad claims that threaten to give much trouble. Among these are the claim of Mora's nephew to a moiety of the indemnity on the ground that his father was half owner with Mora in the seized estates, and one for a large amount by a person who claims to have held a mortgage on the estate. It is believed at the state department that these claims eventually must be passed upon by the courts and from the amounts involved the claimants doubtless will not be contented with anything less than the decision of the supreme court, in which case the department may be enjoined against any disbursements of the fund for an indefinite period.

Not a Good American.

LONDON, Sept. 18.—Geoffrey Perkins, an American, who represented himself to be a lawyer and journalist, has been sentenced to ten years at penal servitude on the charge of levying and collecting blackmail. Perkins was indicted in December last.

"Teddy" Roosevelt Honored.

DENVER, COLO., Sept. 18.—The National Prison Association to-day elected Rosell Brinkhoff, of Ohio, president; Rev. John L. Milligan, of Pennsylvania, secretary, and Charles W. Jessup, of New York, treasurer. Theodore Roosevelt, New York police commissioner, was made chairman of the committee on police in cities.

A Quarter Century Test.

For a quarter of a century Dr. King's New Discovery has been tested, and the millions who have received benefit from its use testify to its wonderful curative powers in all diseases of Throat, Chest and Lungs. A remedy that has stood the test so long and that has given so universal satisfaction is no experiment. Each bottle is positively guaranteed to give relief, or the money will be refunded. It is admitted to be the most reliable for Coughs and Colds. Trial bottles free at Logan Drug Co.'s drug store. Large size 50c, and \$1.00. 6

Cheap Home-seekers' Excursions.
